

# TAKE THE PLEDGE

We pledge to play our part and take the following actions to improve municipal solid waste management

## RETHINK.

Promote a shift in mindset of people from linear make-use-dispose model to a circular model that considers waste as a resource.

## REDUCE.

Cut back on the amount of waste we produce.

## REUSE.

Promote reuse of our waste so that we don't have to throw it out.

## RECYCLE.

Sort our waste and support recycling to reduce the use of raw materials, protect the environment and create jobs.

## REFUSE.

Avoid waste by minimizing production of single-use or disposable items, including plastic water bottles, plastic straws, plastic cutlery and disposable shopping bags, among others.
